**(54) CONTAINER CAPABLE OF BEING HUNG**

**(57) Abstract:**

**PURPOSE:** To facilitate the coloring of a hanging member for a container capable of being hung, which is used for the display of a commodity.

**CONSTITUTION:** An individual container for displaying a commodity comprises a main body 2 and a hook member 5 which is a separate body different from the main body 2. A pair of slide grooves is provided in an upper bottom portion 10B of the main body 2, and a side wall 15 has a pair of locking holes and an engaging hole positioned underneath the locking holes. The hook member 5 comprises a hook part 20, a slide part 25 and a locking part 29 arranged in series. Wing parts 23, 24 which can be inserted into and withdrawn from the slide grooves are provided on the right and left sides of the slide part 25, and the locking part 29 has locking hooks 26, 27, 28 which can be inserted into the locking holes and the engaging hole.
